

Michelle Watson

My name is Michelle Watson. I'm from Adel, GA. I transferred from Georgia Military College in July 2013 and started attending VSU in August 2013. I have really enjoyed my first semester here at VSU! The instructors have kept me motivated to continue my education here. I love the fact they they all have shown me their "open door policy", and they will actually email you back when you email them. My advisor has really help me get on the right path to making a career choice and finishing my education in a timely matter. VSU always have some type of event going on, that keeps the students involved. I would recommend this university to anyone who wants a great college experience!
