1. First of all me and Mr. Ike Williams drove six hours from South Carolina to be here tonight.
2. The drive here was and is worth the occurrence to share in your Dr Martin Luther King Jr Commemorative Celebration.
- 3. I am excited about this opportunity to share what I consider to be **a much needed message for this time in our great country's history.****
4. Dr Martin Luther King had and shared his dream over 50 years ago for America.
5. I whole heartily believe in his dream.
6. I am living the dream and going around the Country showing and telling others the dream is alive and there for everyone to not only remember but live.
7. The question of the day is 50 years later how far have we (America) come.
8. Before Brown verses Board of education there was Briggs Elliott in South Carolina.
9. This case was the first of 5 cases that combine to make up Brown verse Board of Education.
10. There was a cause of separation happening in the school systems during that time.
11. Fast forward to today over 50 years after the successful ending segregation with the Brown verses Board of Education decision.
- 12. How far has America really come?**
- 13. Where does America go from here?**
14. Back then some children only ate at school.
15. Some children had poor classroom material and out of date books.
16. Some children could not attend the school of their choice and had to stay home and work
17. Some students were in poor housing areas with lack of assistance that was needed.
18. These and many more questions are still before us.
- 19. How far has America really come?**
- 20. Where does America go from here?**
21. Do some children in America class rooms have outdated books?
22. Do some children in America have outdated material?
23. Do some children in America only eat at school?
24. Do some children in America live in poor housing (unsafe) areas?
25. Do some children live among chaos in their community?
26. The answers to all these questions are not all but some experience these.
- 27. My answer to how far has America come is;**
- 28. America has made progress but have a ways to go..**
29. Representative Bakari Sellers told an amazing story about the struggles of his Father Dr. Cleveland Sellers.
30. The story was filled with struggle, unfair treatment and most of all endurance.
31. Representative Sellers was very passionate about the story as he shared it with us.
32. At the end he said **the man** in this story was his dad Dr Cleveland Sellers.

33. The story was one that Rep Sellers use to base his speech on as he continued.
